[REDACTED]

Part B

The Bus-It fee will allow for the Bus-It contract to be re-instated between the Alma Mater Society and Kingston Transit. This contract will allow all AMS and SGPS members to have access to an unlimited annual bus pass for a one-time mandatory student fee of \$122. The price of \$122 for the year is significantly reduced compared to what the public must pay to access these services.

Part C

The entirety of the student fees collected from SGPS and AMS members will be used to cover the cost of the Bus-It contract with Kingston Transit. Part of this contract includes special routes that would not otherwise operate.

Part D

1. The AMS is seeking a mandatory student fee from SGPS members to contribute to the cost of the Bus-It contract. If passed, the AMS members will be assessed the same student fee.
2. By assessing the fee to SGPS members, all SGPS members will have access to an unlimited annual transit pass for a one time mandatory student fee.
3. During negotiations with Kingston Transit, the dollar fee was calculated as the cost required to cover operations of transit services as well as re-instating special routes that are included in the contract.

4. The Bus-It contract was first established in 1974
5. In the past, the Bus-It contract was the same as what we are proposing to re-implement in that students had access to an annual transit pass for a one time student fee and special routes such as the late night bus and the west campus bus were routes included in the contract.

Part E - Complete
